

Feedback

We have an open policy here at TGC and are happy to answer any questions you have about progress during the sessions.

When to ask:

It is very busy at drop off and collection but in between those times, senior coaches are available to answer your questions. Simply wait until the children have all gone in for their warm up and ask at reception for some specific progress feedback. We will then check in with the relevant coach and pass information back to you before the end of the session. Unfortunately, it is not always possible to speak directly with your child's coach as they go straight from one class to the next.

If coming to speak with us is not possible, you can email in but please understand that many of our coaches only work one day a week. Please therefore, allow time for us to speak with the coach regarding the gymnast in question.

Other ways to seek feedback:

Our badges are another way to see what your child is learning. If you go to our website and click on our 'Rainbow badge scheme'. Here you can see all the skills needed to complete each badge.

Children should know which badge they are on but if they are unsure, they can ask their coach what one they are working towards.
